

ST. JUDE MEDICAL CENTRE

> Dept. of Internal Medicine

Date: March 26, 2026

> Reg No: MMC/2026/98745

PATIENT INFORMATION: > Name: Mr. Rahul Sharma | Age: 45 | Sex: Male | Weight: 78kg

CHIEF COMPLAINTS: > The patient presents with persistent dry cough for 2 weeks, accompanied by shortness of breath and mild chest congestion. Patient also reports a low-grade fever (100.2°F) and general malaise.

DIAGNOSIS: > Clinical findings suggest Acute Lower Respiratory Tract Infection (LRTI).

PRESCRIPTION (Rx): >

1. Amoxicillin 500mg (Capsule) — 1 tab thrice a day after meals for 5 days.
2. Guaifenesin Syrup (Expectorant) — 10ml twice a day for 3 days.
3. Paracetamol 650mg — 1 tab SOS for fever/pain.

ADVICE: > Steam inhalation twice daily. Increase fluid intake. Review after 5 days if symptoms persist.
